Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1918 Excerpt: . emotion and actual age. There is not in the group here studied a high positive relation between mental age and actual age; hence, if an emotion is highly correlated with mental age, it will not be correlated to any significant degree with actual age. 5. The evidence from these data suggests, but hardly more than suggests, that anger may develop at a lower level of intelligence than either affection or fear, while little indication is offered regarding the relative points of development of the latter two emotions.
