RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 32 pages. Original publisher: Tallahassee, Fla. : U. S. Dept. of the Interior, U. S. Geological Survey ; Denver, CO : U. S. Geological Survey, Branch of Information Services distributor, 2003. OCLC Number: (OCoLC)53071282 Subject: Forest type groups -- Florida -- Fanning Springs Region. Excerpt: . . . Floodplain areas containing transects mapped by color signatures using digital PRELIMINARY MAPPING orthophoto quadrangles (DOQs) Mapping adjustments made to obtain a best fit between recognizable signatures and Basal area of canopy plants reasonably consistent species at transects determined by composition as each new vegetation sampling transect mapped Forest type defined for each color signature using forest composition (in relative basal area) of all transect segments having the same signature Forest type polygons mapped for the remainder of the floodplain using signature definitions from transects (Preliminary reach boundaries used in this step were finalized after verification) Mapping adjustments made based on vegetation data from 9 verification plots and about Preliminary rules developed to test the canopy 150 observation sites composition of mapped forest types VERIFICATION Preliminary verification completed for (based on 102 map using...

Reviews

Extensive manual! Its this kind of very good read through. I actually have read and that i am confident that i am going to planning to study once again once more in the future. I am easily could possibly get a delight of looking at a composed publication.
