Excerpt: . . . if they are to use light in the right way and be contented with what is really good lighting. Many employees do not understand that carrying brightness too far is as injurious and fatiguing as semi-darkness. The tendency of the worker is to think that the brighter the light the better, just as many laymen cannot give up the logic that if one drop of medicine is good, ten drops will work an instantaneous cure. Lighting has a great deal to do with satisfactory working conditions, and a little time and attention put into educating employees in the principles of good lighting is justified. This article reproduces the substance of an article by the supervisor of electrical maintenance of the McCallum Hosiery Company, pointing out the principles of good lighting and showing that increased illumination is not necessarily beneficial. R. H. Waging War on...

Thorough guideline! Its this type of good read. It is really simplistic but shocks from the 50 percent from the publication. It is extremely difficult to leave it before concluding, once you begin to read the book.
