THE MEDICAL CLINICS OF CHICAGO (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Medical Clinics of Chicago General Indications and Contra-indications. Digitalis Indicated for Cardiac Insufficiency of Whatever Type. Action in Individual Valvular Lesions. Toxic Manifestations. Avoidance of Cumulative Action. Preparations and Administration. Adjuvants and Symptomatic Therapy. In the various examples of stasis or cardiac insufficiency which you have seen clinically you may observe that the essential symptomatology pivots on the myocardium. Conventionally, we classify heart diseases as those of the pericardium, myocardium, and endocardium - besides those of nervous disturbance. Practically, from the therapeutic standpoint, most cardiac affections are, on last analysis, myocardial. Valvular diseases, sharply distinguished from each other by their peculiar physical findings, attract attention first when the overstrained heart muscle becomes more or less incompetent. The fresh effusion of pericarditis causes other than local signs and symptoms chiefly when the fluid presses upon the heart and obstructs its complete diastole, and the later adhesions impede the systole by anchoring the heart to the chest wall and mediastinum. The brunt of the chronic intoxications and the acute infections is sustained by the heart muscle. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books.
