

The Fourth Part of the World: the Race to the Ends of the Earth, and the Epic Story of the Map That Gave America Its Name

By Toby Lester

SIMON SCHUSTER, United States, 2009. Microfilm. Book Condition: New. 236 x 168 mm. Language: English . Brand New Book. Old maps lead you to strange and unexpected places, and none does so more ineluctably than the subject of this book: the giant, beguiling Waldseemuller world map of 1507. So begins this remarkable story of the map that gave America its name. For millennia Europeans believed that the world consisted of three parts: Europe, Africa, and Asia. They drew the three continents in countless shapes and sizes on their maps, but occasionally they hinted at the existence of a fourth part of the world, a mysterious, inaccessible place, separated from the rest by a vast expanse of ocean. It was a land of myth--until 1507, that is, when Martin Waldseemuller and Matthias Ringmann, two obscure scholars working in the mountains of eastern France, made it real. Columbus had died the year before convinced that he had sailed to Asia, but Waldseemuller and Ringmann, after reading about the Atlantic discoveries of Columbus's contemporary Amerigo Vespucci, came to a startling conclusion: Vespucci had reached the fourth part of the world. To celebrate his achievement, Waldseemuller and Ringmann printed a huge map, for...
