

# Surface Morphology & Structural studies on Materials by Implantation

Filesize: 7.34 MB

## ***Reviews***

*This type of publication is every thing and got me to seeking in advance plus more. I was able to comprehended every thing out of this created e ebook. I am easily could possibly get a satisfaction of reading a created ebook.*

## SURFACE MORPHOLOGY & STRUCTURAL STUDIES ON MATERIALS BY IMPLANTATION

To save **Surface Morphology & Structural studies on Materials by Implantation** PDF, please refer to the web link beneath and download the ebook or have accessibility to other information which are relevant to SURFACE MORPHOLOGY & STRUCTURAL STUDIES ON MATERIALS BY IMPLANTATION ebook.

LAP Lambert Academic Publishing Mai 2013, 2013. Taschenbuch. Book Condition: Neu. 220x150x11 mm. Neuware - This book contains two major parts: the first part is the ions characterization namely proton and neon ions by using two diagnostics (Faraday cup and solid state nuclear track detector) in terms of flux, energy, fluence etc. The second part includes implantation of those ions on materials of tokamak interest for next generation fusion reactor namely tungsten and graphite and their characterization in terms of surface morphology and structural damages. The emerging results included would provide input to the reactor physics in general and International Thermonuclear Experimental Reactor (ITER) programme in particular. Tungsten and graphite plasma facing component(PFC)s are used in the divertor region of ITER, hence this studies will be mostly beneficial to fusion research. Since ITER is likely to start in 2018, the results listed herewith is foremost in preparing the 10 times larger output of it. 176 pp. Englisch.
